Dear Piyush,
We are excited to offer you a **full-time position**as an **AI-Driven Full-Stack Developer**at Tangible IT, starting on March 1, 2025.
At Tangible IT, we are building **innovative, AI-driven solutions that will transform the academic industry**. Our goal is to create high-impact, scalable, and intelligent technologies that empower students, educators, and institutions. We believe in pushing boundaries, reimagining what's possible, and enabling powerful educational scenarios that drive meaningful
change.
In this role, you will play a vital part in our mission, contributing to **cutting-edge AI development and full-stack engineering**. You will work alongside a passionate team dedicated to **building next-generation solutions for education**.

Employment Terms
Salary: $600 USD per month
Schedule: Monday to Saturday, 8 hours per day
Location: Fully remote
Intellectual Property & Confidentiality
As part of your role, you will contribute to the development of proprietary solutions. Any work, including but not limited tocode,
designs, algorithms, and documentation, created during your collaboration and employment will be the exclusive property of Tangible IT. You agree not to disclose, share, or use any company assets or confidential information outside of your role.
This position offers a unique opportunity to grow in a fast-moving, high-impact environment, where your work will shape the future of education. We value creativity, initiative, and a strong problem-solving mindset. To confirm your acceptance of this offer, please sign and return a copy of this letter by February 26, 2025. If you have any questions, feel free to reach out.
We look forward to **welcoming you to our team and building the future of education together**.
Best regards,

Luis Silva
